The robots are coming

07 August 2025

Total humanoid robot units in ownership (UIO) could reach three billion by 2060E

Long-term forecast of human robot UIO between industrial, service and household applications.

Source: BofA Global Research estimates

BANK OF AMERICA INSTITUTE

Watch out Rosie Jetson! Forecasts for the widespread adoption of humanoid robots suggest total units in ownership (UIO) could potentially reach three billion units by 2060 across industrial, service, and household uses. These robots could boost productivity and take on hazardous tasks. As they evolve from automation tools to autonomous agents, their role may shift from following instructions to making decisions independently.
